Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Rejections under 35 USC 112, first paragraph, regarding "% identity" language and "mature" were discussed. Regarding the "% identity" language, Applicants suggested amending the claims to include the functional limitations "endothelial cell proliferation." This appears to overcome the issues under 35 USC 112, first paragraph, regarding "% identity" language. As for the term "mature" it appears that Applicants' arguments have overcome the enablement rejection and the Examiner will contact Applicants as to the status of the claims under written description with respect to the term "mature".
